

SAFETY DATA SHEET

SECTION 1: IDENTIFICATION

Product Identifier: LEVELMAX Primer X Timber

Recommended Use: Bonding primer for timber substrates before self-levelling compounds.

Supplier: LevelMax Australia (Level Flow Pty Ltd, ABN 75 680 434 128)

Address: Unit L/61-65 Roberts Rd, Greenacre NSW 2190, Australia

Website: www.levelmax.com.au

Email: info@levelmax.com.au

Telephone: 1300 601 898

Emergency phone number:

Australia Emergency Services: 000 Australian Poisons Information Centre: 13 11 26

New Zealand Emergency Services: 111

New Zealand National Poisons Centre: 0800 POISON (0800 764 766)

SECTION 2: HAZARD(S) IDENTIFICATION

Classification: Not classified as hazardous according to Safe Work Australia (GHS 7).

Hazard Statements: Prolonged skin contact may cause damage to the skin.

Precautionary Statements: Avoid contact with skin and eyes. Wear suitable protective gloves.

SECTION 3: COMPOSITION AND INFORMATION ON INGREDIENTS

Ingredient	Proportion (%)
Acrylic emulsion	50%
Calcium carbonate powder	35%
Water	13%
Cellulose ether	1.0%
Defoaming agent	0.5%
Fungicide	0.5%

SECTION 4: FIRST AID MEASURES

- Eye Contact: Rinse immediately with plenty of water for several minutes. Remove contact lenses if present and easy to do so. Get medical attention if irritation persists.
- Skin Contact: Wash immediately with soap and water. If skin irritation occurs, get medical advice.
- Ingestion: Do not induce vomiting. Rinse mouth with water. Get medical attention, showing the SDS or product label.
- Inhalation: Remove casualty to fresh air and keep warm and at rest.

SECTION 5: FIREFIGHTING MEASURES

- Extinguishing Media: Water spray, chemical foam, carbon dioxide or dry powder.
- Specific Hazards: Non-flammable. In a surrounding fire, packaging may produce smoke; do not inhale combustion gases.

SECTION 6: ACCIDENTAL RELEASE MEASURES

- Personal Precautions: Wear personal protection equipment. Remove persons to safety. Avoid contact with skin and eyes. Wear suitable protective gloves.
- Environmental Precautions: Do not allow to enter into soil/subsoil. Do not allow to enter into surface water or drains. Do not allow the product to leak or be discharged directly into drains, sewers, or soil.
- Methods for Cleaning Up: Take up with absorbent material or sand and transfer to a suitable container for disposal. Spilled product can be mixed with sand or soil and dried to form solid waste, which can be treated as construction waste.

SECTION 7: HANDLING AND STORAGE

- Handling: Avoid contact with skin and eyes, inhalation of vapours and mists. Do not eat or drink while working.
- Storage: Keep away from food, drink and feed. Keep containers tightly closed in a cool, well-ventilated place. Store above 0°C and protect from freezing.

SECTION 8: EXPOSURE CONTROLS AND PERSONAL PROTECTION

- Occupational Exposure Limits: No data available.
- Personal Protective Equipment (PPE): Avoid contact with skin and eyes. Wear suitable protective gloves. Suitable materials for safety gloves can be found in AS/NZS 2161.10.

SECTION 9: PHYSICAL AND CHEMICAL PROPERTIES

- Appearance: Grey paste
- Odour: Faint odour
- Water Solubility (20°C): Dispersible in water
- Flash Point: Not applicable
- Flammability: Non-flammable
- Explosive Limit: Not applicable

SECTION 10: STABILITY AND REACTIVITY

Chemical Stability: Stable under normal conditions. No decomposition or hazardous reaction occurs when used as directed.

SECTION 11: TOXICOLOGICAL INFORMATION

- Acute Toxicity: Based on available data, the classification criteria are not met.
- Skin Contact: Prolonged or repeated contact may cause skin dryness or irritation.
- Eye Contact: Direct contact may cause temporary irritation.

SECTION 12: ECOLOGICAL INFORMATION

Ecotoxicity: Adopt good working practices, so that the product is not released into the environment. Do not allow the product to leak or be discharged directly into drains, sewers, or soil.

SECTION 13: DISPOSAL CONSIDERATIONS

Disposal Methods: The generation of waste should be avoided or minimised wherever possible. Recover if possible. Do not dispose of waste into sewers. Dispose of empty packaging in accordance with local regulations.

SECTION 14: TRANSPORT INFORMATION

- Hazards: Not classified as dangerous in the meaning of transport regulations.
- Road and Rail Transport (ADG Code): Not classified as Dangerous Goods.
- Marine Transport (IMDG Code): Not classified as Dangerous Goods.
- Air Transport (ICAO/IATA): Not classified as Dangerous Goods.

SECTION 15: REGULATORY INFORMATION

- Regulations: Not classified as hazardous according to Safe Work Australia (GHS 7).
- AIIIC: All components are listed on or exempt from the Australian Inventory of Industrial Chemicals.

SECTION 16: ANY OTHER RELEVANT INFORMATION

Date of Preparation: October 2026
